PHYTEC Messtechnik GmbH • Postfach 100403 • D-55135 Mainz

Mainz, 20nd June 2013

Certification of the Implementation of EU Directives RoHS-II (2011/65/EU) and WEEE (2002/96/EG)

To Whom It May Concern:

We herewith certify that all products delivered as of **2nd January 2013** by PHYTEC Messtechnik GmbH - and its affiliated companies PHYTEC America LLC and PHYTEC France SARL - comply with the material prohibitions of EU Directive **RoHS-II (2011/65/EU)**. In the event that the availability of components should result in any limitations to this directive, we will provide you with information regarding any non-conformity.

In the event that your particular application is subject to an exception set forth in the ElektroG [German Electricity Act] with regard to prohibited materials, we can continue to supply you – depending on the availability of components. However, such deliveries would not be RoHS-compliant. Please contact PHYTEC to make arrangements for delivery of product under this exception.

We have been in compliance with EU Directive **WEEE (2002/96/EG)** since **13th August 2005**.

Best regards,

PHYTEC Meßtechnik GmbH
